2021-2022 Season Outlook: *

I think we are going to be pretty strong this season. We put in a lot of practice time last year and the freshmen we took last year (current sophomores) look strong in the field and at bat, so it will be exciting to finally see them play in a game, and of course anyone else that we add to the team after tryouts. We also have some strong returning pitchers that we will be relying on.

Interesting/fun facts about your team:

The first time our team ever made it to the postseason was the last regular season before covid.
